

Sunil Kumar Gajula

Full Stack Web developer

PROFESSIONAL SUMMARY

Experienced Full Stack Web Developer with over **2 years of hands-on experience**. Passionate about building interactive and user-friendly websites, have a strong track record of writing efficient and highly scalable code. Proficient in collaboration, decision-making, and employing data structures and algorithms. Eagerly seeking an opportunity to contribute the skills as a Full-stack developer to an tech-driven organization.

PROFESSIONAL EXPERIENCE

SENIOR APPLICATION DEVELOPER (WEB DEVELOPMENT)

Costa Cloud (August 2023 - Present) | Delhi

- Collaborating with project managers, UX professionals, and other developers to gain a thorough understanding of project requirements within the agreed-upon scope and architectural designs.
- I converted a monolithic architecture into a micro frontend structure within the company. While leading a team of 10 frontend developers and providing guidance on various projects, I also actively participated in coding.

FULL STACK DEVELOPER

Taskmo (July 2022 - July 2023) | Bengaluru

- Successfully developed and ensured the performance, quality, and responsiveness of four websites for Amazon projects. These websites, namely **Amazon Stickers**, **Amazon Admin**, **Amazon QC**, and **Amazon Telecalling**, were specifically designed for internal team usage.

FULL STACK DEVELOPER

INVEST WITH TRIBE (January 2022 - June 2022) | Bengaluru

- Designed website layouts and user interfaces using standard practices and modern JavaScript frameworks, including React, Redux, CSS, and Material-UI
- Consistently strive to write well-designed, testable, and efficient code by adhering to the best software development practices.

TECHNICIAN

Robert Bosch Automotive Electronics India Private Limited

(August 2020 - March 2021) | Bengaluru

- Operated the pick and place machine efficiently, ensuring accurate placement of components. Responsible for reporting the machine's status to the team leader regularly.
- Worked under the payroll of Manpower Solutions Private Limited, an esteemed organization that provided staffing and HR solutions to various companies.

PROJECT

SHOP NOW

An e-commerce website that allows users to buy items online.

Features: User Authentication | Filters | Payment Gateway | Admin Dashboard | End-to-end product purchasing flow from the store.

Tech Stack: React Js | Redux | Express Js | Node Js | MongoDB | Material-UI

Built a MERN stack e-commerce site with real-time Stripe payment integration. Features advanced filtering (price, categories, ratings), powerful search, and admin dashboard for easy product management, real-time stock tracking, and payment insight
